

Our objective at the Graduate Real Estate Association of Tepper (GREAT) is to provide a platform for members to meet industry experts and develop meaningful connections in select capital markets. As an emerging club, we strive to create a network of strategic recruiting partners that future classes are able to leverage in today's competitive environment.

Board Members

GREAT board members have over 15 years of combined work experience in a variety of industries, which allows them to provide valuable insights for club members. Taking examples from real world cases, we seek not only to educate, but also lay down the framework to develop real estate professionals.
